

SOUND|LAUNCH by Alder & Sound

Support your global expansion by ensuring optimal group and internal operating structure and minimized risks

For any start-up or growth company planning to launch international business or expand to a new location with a sound blueprint for cross-border operations.

- ▶ A **½ day workshop**, led by experienced A&S professionals, with the key business representatives in order to gain comprehensive understanding of current business operations, future scenarios and other relevant circumstances.
- ▶ Following the workshop, we shall prepare and deliver a tailored roadmap / guide book covering the relevant **legal, tax and transfer pricing aspects** to take into consideration when expanding your business operations to new location(s):
 - **Legal:** Company establishment, employment law, IPRs, external & internal agreements, data protection
 - **Tax:** Corporate income tax, VAT & customs, withholding taxation, employee taxation, permanent establishments, bonus schemes / incentives, tax returns & mandatory reporting
 - **Transfer pricing:** Internal operating model, intercompany pricing principles, documentation
- ▶ We shall further support the growth and international expansion of business operations by providing **discounted rates** for necessary further analyses and documentation.
- ▶ Our **global, hand-picked cooperation network** is also at your disposal for any local advisory and assistance needs you might have.
