

# TP|WORKSHOP by Alder & Sound

Design of optimal internal operating & transfer pricing model for cross-border business operations

For any group engaged in cross-border business operations (or planning to go international).

- ▶ A **½ day workshop**, led by experienced A&S professionals, with the key business representatives in order to gain comprehensive understanding of current business operations, future scenarios and other relevant circumstances.
- ▶ Following the workshop and in order to facilitate decision making on the next steps, we shall prepare a brief and straight-to-the-point **executive report**, outlining in a clear and actionable manner:
  - The **key findings** and our analysis of the current situation;
  - **Our recommendation** for the optimal internal operating & transfer pricing model (incl. internal pricing principles);
  - **Action points and to-do's** towards implementation.
- ▶ We shall support implementation of the optimized internal operating & transfer pricing model by providing **discounted rates** for necessary further analyses (on withholding taxation, permanent establishments, customs etc.) and documentation (internal agreements, transfer pricing documentation). Our **global, hand-picked cooperation network** is also at your disposal for any local advisory and assistance needs you might have.

**FIXED FEE**

**2.500**
